

President Of International Academy Of Genius: Only Retiring Or Totally Corrupt Ministers Of Education, Superintendents Or Principals Can Ignore The Revolutionary Teaching Improvements Offered By Genius Education Methodology

Genius education methodology brings immediate relief to students, parents and educators - those who want to get better teaching and learning results now - not in ten years.

For Immediate Release

MONTGOMERY, Ala./EWORLDWIRE/Jan. 11, 2006 --- Dr. Andrei Aleinikov, "The Most Creative Man in the World," and the designer of Genius Education Methodology (GEM), received an overwhelmingly positive response after his workshop, "Genius in Every Teacher," at the Teachers' Development Center in Karachi, Pakistan.

Dr. Aleinikov's philosophy is simple: "If we can improve one teacher, then overnight we will improve the learning and life results of 20 to 30 children. If we improve 100 teachers, we save 2,000 to 3,000 potential geniuses."

This is what Pakistani principals and teachers wrote:

- "Totally new concept and an eye-opener that will change my method of teaching." - *Nilofar Hei*
- "It was fabulous." - *Rukhsana Khawaja*
- "Andy, your megainnovative theories will megacreate my personality and bring about megachanges in my life." - *Zanaib Adeel*
- "Thank you for making me a genius." - *Tayaba Nasreen Ali*
- "The workshop was very interactive. We came to know lots of strategies to be creative and make our students creative as well." - *Kanwal Laiq*
- "Sitting in your workshop - the faces of all those children - who are on the school probationary list or learning difficulty programs - flashed before my eyes - the face of my daughter whom I have always taken for granted - you made me eat humble pie. All my students will be leaders one day." - *Sarwat Baig*
- "I have discovered a genius in myself which was sleeping in my body." - *Minhas Tejani*
- "I feel there are now a million possibilities open for me which I cannot wait to try in class." - *Samina Tariq*
- "I realized the potential inside of me - I woke up. I've taken the first step towards being a better person, a better humanitarian and a better teacher." - *Kiran Kheiri*

Dr. Aleinikov, whose life mission is to save geniuses, also stated that a school can be dramatically improved in four days, district education in weeks, state education in months and education of a country like Singapore in one to two years. After 10 to 20 years the saved geniuses will make new discoveries and inventions, thus making the country that adopted GEM a global leader in science, technology, business, education and arts.
