

ControlScan Certifies Tammy Vajgrt Of Century 21 Premier Realtors As Safe Shopping Site

In an effort to increase its Internet security, Tammy Vajgrt, a leading real estate agent in the Fort Hood area, announced today that it has become certified by ControlSan.

For Immediate Release

MARIETTA, Ga./EWORLDWIRE/March 20, 2006 --- As a measure to increase privacy and security and to prevent hackers and thieves from accessing sensitive information from its customers, Tammy Vajgrt (www.tammyvajgrt.com) Century 21 Realtors of Fort Hood, Texas, hired Control Scan and subscribed to the Enterprise Secure Plan.

Through its unique process, Control Scan will conduct security tests and audits for Vajgrt and certify the site's security.

"Privacy and security are the main concerns of consumers," says Control Scan President and CEO Richard Stanton. "Consumers want to do business with companies who take privacy and security seriously. By passing the audits associated with the Enterprise Secure Plan, visitors to Tammy Vajgrt are reassured that this company is committed to protecting their personal and credit card information and providing a safe online shopping experience."

"As information about privacy and security becomes more rampant, consumers are learning that it is not safe to give just any business their personal information. Likewise, businesses owners understand that they must take precautions to protect themselves and their customers from these criminals," said Vajgrt. "By using Control Scan Enterprise Secure Plan we hope to give both parties the assurance that their transactions are secure."
