IQinVision Announces New Staff Amidst Continued Expansion Of Global Sales And Support Operations

Response to Excellent 2005 Sales Growth in U.S. and European Markets

For Immediate Release

SAN CLEMENTE, Calif./EWorldWire/April 5, 2006 --- IQinVision, market leader in high performance megapixel network cameras, smart IP cameras and network video recording systems, today announced several new staff members to support continued expansion of global operations.

Responding to continued excellent sales growth during 2005 in United States and European markets, IQinVision announced that it has added sales, marketing, operations staff and concluded new, expanded distribution agreements in Canada and Asia. "The demand for our IQeye megapixel cameras is exploding, and we want to make sure that in addition to best-in-class products, we have best-in-class customer support and service," commented Pete DeAngeles, IQinVision's president and CEO.

To support continued growth in key markets, IQinVision has signed manufacturer's representative agreements with Security Innovations in Eastern Canada and Everlight Technologies in Singapore.

In the United States, the company announced the addition of several new staff. Frank Iezzi, formerly with Versas and March Networks has joined as the Northeast regional sales manager. Bob Gitre, who has worked with 3VR, IPIX and Verint will manage IQinVision's Western Region, including Western Canada, and Ken Darby, formerly with Petards/PI Vision, will be the Southeast regional sales manager. Ryo Masukawa, materials manager, and Michelle Butler, accounting specialist, will be based at the IQinVision's headquarters in San Clemente, California and Cathy Cooper will join the Lancaster, Pennsylvania-based sales and marketing team as marketing specialist.

About IQinVision

IQinVision designs, manufactures and markets high performance, multi-megapixel IP cameras, intelligent video processing platforms and network-video-recording systems. Established in 1998, IQinVision has helped shape the surveillance and industrial video markets as the first to introduce HDTV resolution network security cameras, multi-megapixel IP video systems and multi-user digital pan/tilt/zoom. IQeye network cameras offer superior image quality with high speed, low light and intelligent video options and are used in a wide variety of government and commercial applications. The IQeye can run in stand-alone mode or can be integrated with other systems via its complete Software Developer's Kit and API.

IQinVision is privately held and headquartered in California with regional offices in Pennsylvania and Utrecht, Netherlands. The company's products are available as IQeye-branded, private-labeled and custom OEM models. IQinVision's management is committed to exceeding the expectations of its partners and customers.
