

ControlScan Certifies ClubFurniture.com As A Safe Shopping Site

ControlScan, the Internet's first and only B2B third-party identity theft certification service, today announced that it has certified ClubFurniture.com as a safe shopping site.

For Immediate Release

MARIETTA, Ga./EWorldWire/May 24, 2006 --- The certification is part of ControlScan's Corporate Secure Plan, which involves a unique process including daily security tests and audits of ClubFurniture.com's Web site to ensure the safest possible experience for online purchases.

Once a company passes the security process associated with the Corporate Secure Plan the company will receive the Hacker Defended, ID Theft Protected, Privacy Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing ClubFurniture.com's customers to receive independent third-party verification of the site's security before they provide personal data.

"Privacy and security are the main concerns of consumers," says ControlScan president and CEO Richard Stanton. "Consumers want to do business with companies who take privacy and security seriously. By passing the audits associated with the Corporate Secure Plan, ClubFurniture.com visitors are reassured that this company is committed to protecting their personal and credit card information and providing a safe online shopping experience."

"We are always striving to provide the best experience for our consumers and realize a significant aspect of that is ensuring their peace of mind when they provide us their personal information," said Jeff King, vice president of marketing for ClubFurniture.com. "As an industry leader, ControlScan allows us to offer our customers the safest online transactions possible."

About ControlScan

ControlScan provides third party verification and services to identify, measure and prioritize security, privacy, quality, accessibility and compliance risks that exist on corporate Web properties. ControlScan solutions provide the visibility and control necessary to evaluate a company's Web property risk exposure, and to put processes and procedures in place to effectively implement online governance strategies. For more information visit ControlScan or call, toll free, at 1-800-825-3301 x110.
