

DESCO, LLC Achieves Intuit Gold Developer Status

Only ten companies have achieved Gold status and dESCO is the first ever service management solution to achieve this status.

For Immediate Release

FORT MYERS, Fla./EWORLDWIRE/Sep. 22, 2006 --- DESCO, LLC, the industry leader in service dispatching software, today announced it has earned certified status in Intuit's Developer Network. As a Gold Certified Developer, dESCO has demonstrated expertise with Intuit technologies and a proven ability to meet customer needs. Intuit Gold Certified Developers have met requirements that include a Technical Product Review, Customer Satisfaction Ratings, and a QuickBooks Certified Pro Advisor Review of their software.

"We are extremely pleased to be among the very first companies to achieve Gold Developer Status from Intuit and the first in our software vertical," said Vice President of Sales and Marketing Thomas Fanelli. "The benefits provided through our Gold Developer Status will allow us to continue to enhance the offerings and clearly promote our expertise in sharing data with QuickBooks."

DESCO is at the height of its innovation, continuing to develop the very best software solutions for the service verticals. Since its inception it has seen a lot of changes, but one thing remains constant - customer service quality. DESCO continues to be vigilant in its efforts to deliver the highest level of service and support to users.

DESCO's mission is to deliver innovative software to small and medium size businesses at a cost-effective price. The company's strategy of "partnering for success" makes it more than just a software vendor. DESCO positions itself as a business partner, providing the end user with effective solutions for their business needs. The main focuses are service call and technician scheduling, service contract management, inventory and equipment tracking. DESCO continues to expand its product offerings by integrating with third party applications like Xora, Vetro, MapPoint, Best Software, developers of Peachtree Accounting, SageQuest and others.
