IQinVision Adds To And Strengthens Senior Management Ranks

Nazarenus joins to head up sales; Bodell now to focus on marketing

For Immediate Release

SAN CLEMENTE, Calif./EWorldWire/Nov. 5, 2007 --- IQinVision, market leader in high performance megapixel network cameras, smart IP cameras, and network video recording systems, today announced the appointment of Mark Nazarenus as vice president of sales. Nazarenus is a security industry veteran with wide experience, most recently serving as vice president of sales and marketing for Integral Technologies.

As Nazarenus joins the fast-growing organization, Paul Bodell, formerly Vice President Sales and Marketing, assumes the title of Chief Marketing Officer, where he will be managing the rapidly expanding marketing team. Bodell remarked, "Having someone of Mark's calibre join us reflects our reputation, growth and market presence." In addition to managing the Lancaster, PA-based Marketing and Tech Services Group, Bodell will lead Strategic Business Development and OEM initiatives for IQinVision.

Nazarenus brings to IQinVision more than 28 years of security industry experience in service, sales and management. "I have an opportunity now to work in a company that is defining its market and leading the way. Multi mega-pixel technology is here now, and we have a great and growing global sales team. IQinVision is poised to really take off, and I am pleased to join such a dynamic, leading-edge company," said Nazarenus.

"Mark is a great fit for our organization - we are getting a proven professional from a great company," commented Pete DeAngelis, IQinVision president and CEO. "Now that the megapixel market has clearly arrived, his experience and leadership will be instrumental in continuing our explosive growth."

About IQinVision

IQinVision designs, manufactures and markets high performance, multi-megapixel IP cameras, intelligent video processing platforms and network-video-recording systems. Established in 1998, IQinVision has helped shape the surveillance and industrial video markets as the first to introduce HDTV resolution network security cameras, multi-megapixel IP video systems and multi-user digital pan/tilt/zoom. IQeye network cameras offer superior image quality with high speed, low light and intelligent video options and are used in a wide variety of government and commercial applications. The IQeye can run in stand-alone mode or can be integrated with other systems via IQinVision's complete software developer's kit and API.

IQinVision is privately held and headquartered in California with regional offices in Pennsylvania and Utrecht, Netherlands. The company's products are available as IQeye-branded, private-labeled and custom OEM models. IQinVision's management is committed to exceeding the expectations of its partners and customers.
