

NiteLites Outdoor Lighting Of Houston Keeps It Light Even After The Change In Daylight Savings Time

Houston Lighting Business Brings Light to End of Daylight Savings

For Immediate Release

HOUSTON/EWORLDWIRE/Oct. 27, 2008 --- NiteLites Outdoor Lighting, the landscape lighting professionals, doesn't think that the end of Daylight Savings Time should leave business owners and homeowners in the dark. The beauty of a property remains into the autumn and beyond even though the daylight hours grow shorter. NiteLites low voltage, custom outdoor lighting systems showcase residential or commercial properties throughout the year.

People build upscale homes and businesses and invest in their landscaping, but at night, especially once Daylight Savings Time has ended, the property is barely visible or not visible at all. During the summer hours, especially with Daylight Savings, this may not be an issue, but as the daylight hours grow shorter, and with the end of Daylight Savings, the need for lighting extends beyond the daytime. NiteLites offers custom architectural and landscape lighting systems as the reliable lighting solution.

An outdoor lighting system provides a number of benefits to a property owner. The benefits include unsurpassed curb appeal, increased property value, expanded living and entertainment space, low cost operation, and expandability. In addition to these benefits, the most important benefits of a custom outdoor lighting system are the safety to navigate around the property and the security provided by eliminating the blackened areas.

A custom designed outdoor lighting system can be the home improvement project that includes beauty, practicality, and a return on investment NiteLites is an industry leader in the low voltage outdoor architectural and landscape lighting field, and specializes in both residential and commercial installations.

NiteLites has been in business since 1998 and has grown from a single office operation to a nationwide franchise operation. Each location offers complete outdoor lighting service - from planning, through installation, to a comprehensive maintenance plan, ensuring the ongoing enjoyment of its lighting systems.

NiteLites high quality specification grade products are weather resistant and made to last. The fixtures are made of acid-etched copper and brass, eliminating the need for painting, and eliminating any cracking or peeling. Because of the quality of the products NiteLites uses, they offer one of the best warranties in the industry. NiteLites continually strives to elevate the standards of quality, safety, and professionalism. Their products provide the best of both worlds - the latest cutting-edge technology as well as a solid history of providing first rate service to each of their clients.

NiteLites low voltage lighting systems can be installed with a minimum of disruption to the property and operated more efficiently than a 120 volt line system. NiteLites lighting systems are also easily expanded to meet the changing requirements of the property owner.

For more information on NiteLites architectural and landscape lighting or to register for a free personal consultation, contact Mr. Rob Greening, local owner and operator of NiteLites at 281-454-4900. You may also call 1-866-NITELITES (648-3548) or visit '<http://www.nitelites.com>' and select Free Demo.

Due to the demand for outdoor lighting systems, NiteLites expects expand and add to the number of their franchises. NiteLites offers a proven business plan and an affordable entry price.
