## **IQeye Alliance Series Dome with H.264 and Audio Now Shipping**

*First fully-integrated vandal-resistant megapixel dome camera line on the market*

For Immediate Release

SAN JUAN CAPISTRANO, Calif./EWORLDWIRE/Dec. 9, 2008 --- IQinVision, market leader in high-performance megapixel network cameras, smart IP cameras, and network video recording systems, today announced that IQeye Alliance Series vandal dome camera models with H.264 video compression and two-way audio are now shipping.

The IQeye Alliance Series is the first fully-integrated, vandal-resistant megapixel dome camera line on the market. Its features include high-resolution images from VGA to 5.0 megapixels, full PoE capability, and a 3-axis gimbal. A key highlight of this release is the industry-first, pivoting hinged shroud that automatically stays aligned with the camera position, yet easily swings away to make camera positioning a breeze. Like all IQinVision products, the Alliance Dome Camera system is designed to save time and money on installation and maintenance.

"Many companies have been talking about H.264 cameras for a while now but for the most part these cameras are still on the drawing board. The IQeye Alliance models are some of the first H.264 camera products actually being delivered in the market place today," said Pete DeAngelis, IQinVision president and CEO. "We continue to raise the bar with innovative, best-in-class products, and we continue to exceed our customers' expectations by delivering those products in a timely manner."

About IQinVision

IQinVision is the world leader in megapixel IP video. Since 1998, IQinVision has been designing, manufacturing, and marketing the IQeye family of high-performance network cameras, intelligent cameras, and network video recording (NVR) systems. Committed to leading the industry with highly-valued products and customer service, IQinVision was first to market with HDTV and megapixel cameras and has received numerous awards from Frost & Sullivan, ST&D, Detektor, IIPSEC, and others. IQeye network cameras are renowned for image quality, stability, and reliability in the most demanding network conditions and environments. The IQeye acts as a stand-alone NVR or integrates with third-party NVR and video analytics software for enterprise-wide deployments. IQinVision products are available as IQeye-brand, private-labeled, or OEM models, and have been widely deployed in city center, property management, education, retail, casino, government, transportation, and a number of other vertical market applications. IQinVision is a privately-held corporation headquartered in San Juan Capistrano, California with regional offices in Lancaster, Pennsylvania and Utrecht, Netherlands.
