IQsummit 2009 Series From IQinVision To Deliver Education And Networking Benefits

More than two dozen events scheduled throughout the US and Europe

For Immediate Release

SAN JUAN CAPISTRANO, Calif./EWORLDWIRE/Jan. 7, 2009 --- IQinVision ('<http://www.iqeye.com>'), market leader in high-performance megapixel network cameras, smart IP cameras, and network video recording systems, today announced a new program of educational and networking events for the IP security industry - the IQsummit 2009 Series.

IQsummit IP technology events are one-day interactive programs designed to educate anyone considering a surveillance system about the latest, most important technology trends and developments in today's security video industry. With events scheduled throughout the U.S. and Europe, IQsummits are the ultimate one-stop shop for enhancing one's knowledge about IP video design and integration.

Attendees will benefit from a variety of sessions including the features and benefits of IP megapixel cameras, live product demonstrations showcasing complete IP security solutions, informative discussions on selecting the proper technology to meet project specifications, and more.

"It's imperative for us to reach out to the security industry with high-quality events like the IQsummit Series to educate installers, integrators, end users, and A&Es about the advantages of IP security cameras, megapixel resolution for surveillance video, and the full security system solutions we can deliver together with our IP technology partners," said Pete DeAngelis, president and CEO. "These IQsummit events are a great starting point for someone researching the world of IP video security solutions to learn more and connect with the right people to find the most effective solutions."

IQinVision held its inaugural IQsummit events in Philadelphia and Holland in the fourth quarter of 2008, and, based on overwhelming demand, has expanded the program to other regions. The events will consist of presentations by complementary IP technology companies as well as networking with peers.

For a complete schedule and registration details, please visit the IQsummit Web page at '<http://www.iqeye.com/index.php/ip-technology-events-iqsummit-2009.html>'.

About IQinVision

IQinVision is the world leader in megapixel IP video. Since 1998, IQinVision has been designing, manufacturing, and marketing the IQeye family of high-performance network cameras, intelligent cameras, and network video recording (NVR) systems. Committed to leading the industry with highly-valued products and customer service, IQinVision was first to market with HDTV and megapixel cameras and has received numerous awards from Frost & Sullivan, ST&D, Detektor, IIPSEC, and others. IQeye megapixel network security camera systems are renowned for image quality, stability, and reliability in the most demanding network conditions and environments.

The IQeye acts as a stand-alone NVR or integrates with third-party NVR and video analytics software for enterprise-wide deployments. IQinVision products are available as IQeye-brand, private-labeled, or OEM models, and have been widely deployed in city center, property management, education, retail, casino, government, transportation, and a number of other vertical market applications. IQinVision is a privately-held corporation headquartered in San Juan Capistrano, Calif., with regional offices in Lancaster, Pa., and Utrecht, Netherlands.
