

ADULT: Venezuelan Goddess Fashion And Glamour Books, Video And 12-Song CD Showcase Model Jasmin A. Natera

New release of Natera's Venezuelan Goddess Fashion and Glamour Book Series, and the DVD Glamour Video with original 12-song CD soundtrack, define "Feminine."

For Immediate Release

NEW YORK/EWORLDWIRE/Jan. 15, 2009 --- On Jan. 14 at VenezuelanGoddess.com ('<http://www.venezuelangoddess.com>'), Aegaeon Publishing will officially release the results of two years in production:

. Three exotic, stand-alone fashion volumes of Venezuelan Goddess Jasmin A. Natera. All photography is produced in quality vivid color, in 13-inch by 11-inch landscape coffee table format. The works are registered with the U.S. Library of Congress.

. The Venezuelan Goddess Fashion and Glamour DVD Video and 12-song CD soundtrack. The content provides an up-close, first-class personal look at Natera - one of the world's most beautiful glamour models.

Photography by John H. Hollis IV immerses viewers in the most exotic photo locations on earth, while glamour model fans gain a new perspective of modeling on location, transported to distant South American destinations: Montevideo, Medellin and Margarita Island.

Along with exposing the personal life of Natera, the striking visuals and music provide a glimpse into what it is like to be young and beautiful.

Hugo Vargas, executive editor of La Nueva Co. Cine Y Video (LNC) for the Venezuelan Goddess Glamour Video, explains: "One of my greatest pleasures during this super busy year at LNC was the making of the video in our studios. Matching video quality to the astounding Jasmin Natera was definitely one of the greatest and most pleasant experiences of the year. If you need an exotic respite from the daily grind, these are definitely the fashion books and video for you."

Executive Manager Nilson Vera Parra of LNC says: "Of all the fashion shows and fashion videos we have conducted over the years in South America, Venezuela Goddess is by far the best fashion video and soundtrack creation our studios have been involved with."
