

The Sundance Company Standardizes on Landport's Internet Driven Work Order Management

Landport automates Sundance's property management operations

For Immediate Release

BOISE, Idaho/EWORLDWIRE/Aug. 27, 2009 --- The Sundance Company (Sundance), a regional real estate leader with three decades of experience serving the greater Boise area, today announced the company is standardizing on Landport's Internet Driven Work Order Management System. Sundance is using Landport to manage all tenant service requests, work orders and preventive maintenance for its property management operations. Landport is a global leader in service request, work order, preventive maintenance and related property management services delivered via the Internet. The Sundance Company is fully operational on Landport.

"Sundance is excited to achieve another market first," said Carissa Primmer, portfolio manager. "We are committed to providing the best service available anywhere to our client base in greater Boise. Landport has helped us take a giant leap towards creating raving fans out of our tenants."

Landport Systems Inc. provides the world's leading Internet Driven Work Order Management System for handling online work orders and preventive maintenance. Landport enables property managers to handle more work in less time with lower costs, while improving service. Landport clients include property management firms, facility managers, corporations, K-12 school systems, universities, city, county, state governments, the U.S. federal government, banks, hospitals, nonprofit organizations and more. Landport fully automates tenant, employee, manager, maintenance staff and service vendor communication, enabling fast and efficient resolution of on-demand service requests and preventive maintenance. Using Landport, managers and service providers are able to achieve far higher levels of efficiency.

"The Sundance Company's selection of Landport is further validation of our service offering," said David George, Landport's president and CEO. "Landport continues to provide the most powerful, reliable, cost effective, easy to use work order management system available anywhere."

About Landport Systems Inc.

Landport Systems is the world's leading Internet Driven Work Order Management System for service requests, work orders and preventive maintenance, fully automating communication between tenants, employees, property and facility managers, maintenance personnel and service providers. Landport's powerful on-demand, online system helps reduce costs, increase efficiency and improve service. Landport enables Web-based service requests, instant notification, work orders, preventive maintenance, management reports, electronic building logs, comprehensive operational analysis, asset management, visitor, resource and emergency management. Landport is accessible anywhere 24/7 through any standard Web browser or smart phone, has unlimited scalability and is highly affordable. There is no software to purchase, install or support. The company is privately held and based in San Jose, Calif. Additional information can be found at Landport.net ('<http://www.landport.net>'). Internet Driven is a registered trademark of Landport Systems Inc.

About The Sundance Company

The Sundance Company has become a development powerhouse with more than 30 years of successful history in Idaho's Treasure Valley and the Boise metropolitan area. Sundance is one of the few local companies that self-manages and maintains its own properties - enjoying higher occupancy levels and superior quality control for its projects. Savvy tenants and buyers look to Sundance for development; office, warehouse,

and retail leasing; property management; build-to-suit/construction; and land and building sales.

With more than 1.5 million square feet of prime office and industrial space in the greater Treasure Valley, Sundance has the size and diversity to avoid the need for a "one-size-fits-all" approach - thereby assuring customized solutions that are genuinely tailored to each client's needs.

The in-house management team values its personal connections and the relationship of trust it has created with its tenants and property owners, which include national and regional companies, some of whom have been in Sundance buildings for more than 15 years.
